

Upcoming April Public Meetings on Skillman Village

Montgomery Township, BOE and VES PTA Encourage VES Parents to Attend CAB Meeting on NPDC Remediation – April 1st

Why: Preparations are being made for continuation of remediation work, including the steam pipe removal work, expected to begin in mid-April.

Where and When: A meeting of the citizen-based Community Advisory Board for the NPDC clean-up, an advisory group and liaison to various stakeholder groups in the community, will be held on Tuesday, April 1st in the Montgomery Township municipal building at 2261 Rt. 206 in the large meeting room at 7:00 p.m.. Representatives from Weston Solutions, the firm handling the remediation work, will present. Interested members of the public are encouraged to attend.

To recap: The pipe removal work started in March '07 and continued all spring and summer on-site, during and after Village School's session. This work was postponed last fall while Weston Solutions renegotiated its subcontractor agreements. A similar schedule to last spring will begin this spring, and includes Weston's commitment that no work will be done in the so called "spaghetti area" to the east of the school when school is in session.
